
SKF Manometer

- SKF pressure gauges are designed to fit SKF hydraulic pumps and oil injectors. The gauges are all liquid filled and/or equipped with a restriction screw in order to absorb any sudden pressure drop thereby preventing damage. Safety glass and blowout discs are standard for all gauges and all have dual scales (MPa/psi).. Covers pressures of 100 to 400 MPa (14 500 to 58 000 psi)
- Protection against sudden pressure drops
- Safety glass and blow out discs on all gauges
- Stainless steel case
- Dual scales MPa/psi
- Easy to ready, high visibility yellow gauge faces

Characteristics

Series: 107
Blow-out included: Yes
Process connection: External thread
Window material: Safety glass

Cabinet diameter mm	Measuring range	Pressure unit	Connection location	Size process connection	Cabinet material	Article
110	0 / 300	MPa	Below	1/2" BSPP(G)	Stainless steel	1077589
