

AMF Marking tools medium type 3761

Design: High-quality guides and robust special needle. Infinite adjustment via a knurled nut on a scale of 0?15 mm. Optimally suitable for small and medium batch sizes. Mounting in 20 mm collets or Weldon mount.

Application: For identifying various materials such as aluminium, titanium, steel, bronze, etc.

Note: External cooling while marking is recommended. Marking needles are not included in the scope of supply.
