

## Ring gauge type 4404

DIN 2285	DIN ISO 1502	DIN 13	M
-------------	--------------------	-----------	---

**Design:** Made of high-quality special gauge steel, completely hardened, unstressed and precision ground, tolerance class 6g. For metric ISO regular threads DIN 13.

**Application:** For testing threads.

**Note:** In order to prevent premature breaking away of the thread gear, the first thread gear is ground and removes coarse dirt. Intermediate dimensions and other tolerances available on request.

**Design:** Made of high-quality special gauge steel, completely hardened, unclamped and precision ground, tolerance class 6g.

**Application:** For inspecting threads. Thread go plug gauges or ring gauges must be easy to screw onto the test object. Thread no-go plug gauges or ring gauges have few shortened thread turns, and are used to inspect the flank Ø. It should not be possible to screw them onto the test object.

**Note:** Intermediate dimensions and other tolerances available on request.
