

FORMAT Plastic pipe shears type 7217

Design: Blade made from stainless steel with optimum cutting geometry and PTFE coating, can be replaced quickly without tools. In order to reduce the risk of injury and to protect the blade, it is protected in the casing. Body made of magnesium die casting with one-handed quick retraction of blades and ergonomic soft plastic inlays.

Application: For precise one-handed cutting, for the quick, low-force separation of plastic and composite pipes with tooth-guided feed.
