

Cooling vest Bodycool Smart

The INUTEQ-DRY® evaporative cooling vest is a comfortable, full-fashioned lightweight vest. No refrigeration or additional gels or chemicals are required. The vest will reduce heat stress and fatigue, allowing you to perform better.

Due to our patented system, the vest will not become wet or soggy, making it suitable for wear underneath clothing.

This product performs best in low to medium humidity. The level of airflow determines the cooling effect.

Size	Colour	Article
