

BETEX Universal 2-arm bearing puller MP25

- These bearing pullers are particularly suitable for extracting bearings, bearing rings, gears, discs etc. for tight or difficult to reach areas. First lateral force is applied to grip the part with the sharp jaws. These grip on the radius of the outer ring. Due to the special construction, the arms cannot move during use. You prevent damage and save time. External puller
- 2-arms
- For tight spaces
- Special jaw construction for extra strong grip

Characteristics

Series: MP25
