

FAG Magneto bearing Series: L

Magneto bearings correspond in their design to deep groove ball bearings. They have only one shoulder on the outer ring and are thus particularly easy to fit. The outer ring can be fitted separately from the inner ring and cage, since the ball set and the outer ring can be separated from each other. Pressed brass cages are generally used.

Characteristics

- Series:** L
- Type:** L17
- Execution:** Single row
- Material:** Steel
- Sealing:** Open

Manufacturer ID	Inner diameter mm	Outer diameter mm	Width mm	Internal clearance	Cage	Article
L17-TVP	17	40	10	CN (normal)	Brass	14177683
L20-TVP	20	47	14	CN (normal)	Brass	11834674
L25-TVP	25	52	15	CN (normal)	Brass	13037245
