

SKF Axios Wireless sensor CMWA

Application

- SKF Axios is a simple, wireless and scalable end-to-end predictive maintenance solution from SKF and Amazon Web Services (AWS). It collects and analyzes vibration and temperature data to detect equipment anomalies and provide notifications on the health of your machinery. These sensors collect data from a wide range of machinery and send them to a gateway. The data are stored in a cloud, where machine learning is used to analyze them. Apps enable users instant access to data and receive notifications. Ideal for virtually any industry. Easy to install. 5 years battery life. Data access from mobile devices via the SKF Axios app.

Description	Article
Axios Wireless sensor CMWA 6400-5 - [5-pack]	14683015
SKF Axios Ethernet gateway CMWA 6710 - via a wired Ethernet connection	14682841
