

BETEX Self-centering hydraulic puller HSP

BETEX HSP self-centering 2/3 ARM PULLER with integrated pump and cylinder in practical PE case

- Compact, ergonomic design, easily operated by one person!

Practical:

Self-centering, easy to convert, 2-arm or 3-arm puller. The arms slide inwards or outwards simultaneously.

Compact:

The self contained hydraulic pump and cylinder save space, as you don't need a separate hose, pump or cylinder.

Strong:

The harder the force, the tighter the jaws grip. The arms cannot bend or deflect.

Economical:

2/3-arm combination puller, 2 pullers for the price of one, including integrated pump and cylinder!

Safe:

The integral safety release valve prevents overloading and ensures that you will never exceed the maximum power capacity.

Versatile:

Various accessories are available. Sets are supplied in practical PE case and consist of a puller block, connecting rods and a set of bearing splitters.

Advantages of self-centering pullers:
Prevents damage to shaft and object being pulled.

- Efficient and saves time.
- Can be used in any position.
- Adaptors included

Characteristics

Series: HSP
