

KAEFER Oil and waterproof gauge

Design: With impact protection; measuring bolts and clamping shaft (Ø 8 mm h6) are made of resistant, rustproof steel, the measuring bolt is lapped. The sleeve, which is guided accurately via the measuring bolt, is arranged and sprung so that impacts are not transferred into the dial gauge gearing. With rubber bellows on the measuring bolt and an O-ring seal on the scale and rear wall to protect against liquids and contamination. Supplied in plastic case.

Note: Suitable measuring inserts M2.5 are available on request.
