

PFERD Flap disc type PFF/PFC aluminium oxide A SG-COOL

Ensures low build-up of heat in the workpiece even when used with minimum contact pressure on variable-speed angle grinders at low rotational speeds

Performs exceptionally well on sheet metal and thin profiles

- Abrasive: Aluminium oxide A with coating Grit sizes: 40, 60, 80, 120

- Professional tool for grinding work achieving a high surface quality with low thermal loads.

Particularly low heat build-up grinding on materials which do not conduct heat well.

- Stainless steel (INOX), aluminium (grit sizes 40 and 60), non-ferrous metals - Cool surface grinding, work on weld seams

Diameter disc mm	Thickness mm	Granulation	Article
