

## PFERD Medium-hard cutting disc, PSF steel, hardness P

Wheel thicknesses 1.9/1.6/1.0 mm for fast, easy cutting with minimized burr formation Wheel thickness 2.4 mm for multipurpose cutting work Wheel thicknesses 3.2/3.0 mm for maximum tool life and high lateral stability Suitable for use on angle grinders of all output categories Use of large clamping flanges [SFS 76, page 48] increases the lateral stability and ensures precise wheel guidance, in particular for thin cut-off wheels of the flat type with dia. 178 and 230 mm - Abrasive: Aluminium oxide A - Medium-hard, multipurpose tool of hardness P with high cutting performance and long tool life.

- Steel - Cutting of sheet metal, profiles and solid material
