

LOCTITE 3090 2-component instant adhesive

LOCTITE 3090 is a 2-component, fast curing, gap filling adhesive with excellent bonding characteristics, making it suitable for a variety of substrates incl. plastics, rubbers and metals. It is designed for the assembly of parts with varying or undefined bond gaps up to 5 mm, or for applications where the complete cure of excess adhesive is a must. The gel consistency prevents adhesive flow even on vertical surfaces. Also suited to bonding porous materials such as wood, paper, leather and fabric.

Characteristics

Series: 3090

Application	Volume ml	Colour	Article
			12179126
Instant adhesive	11	Colourless/transparant	12214182
