

FORMAT Masonry drill type 1259

Design: With round shank. The computer calculated twist profile ensures optimum removal of drilling dust, smoother drilling and optimum impact energy transport. Extremely long tool lives are achieved by the high strength soldering of carbide plates and the annealed surface, which results in a guaranteed higher break-resistance in impacts and higher strength for armouring hits. Up to 50% more holes than standard concrete drills. Certified by the Prüfgemeinschaft Mauerbohrer.

Application: For concrete, stone, masonry, brick, light construction materials, granite and marble.

Characteristics

Cutting direction: Right

Type: Stone drill

Diameter mm	Cutting length mm	Total length mm	Holding system	Article
3	40	70	Cylindrical	23410155
4	40	75	Cylindrical	23086828
5	50	85	Cylindrical	23086829
6	60	100	Cylindrical	23086830
7	60	100	Cylindrical	23410159
8	80	120	Cylindrical	23086831
9	80	120	Cylindrical	23410161
10	80	120	Cylindrical	23410162
12	90	150	Cylindrical	23086833
14	90	150	Cylindrical	23410164
16	100	160	Cylindrical	23410165
