

## ALBRECHT High-performance quick-acting drill chuck SBF type 3435

Design: Keyless and self-tightening in precision design for clockwise rotation.  
 High concentricity (based on DIN ISO 10 888) for more precise bores and higher tool lives.  
 All wear parts are case-hardened, ground and manufactured to be compatible with each other as well as interchangeable.

Application: For high endurance stress as well as precision work on drills, drilling machines and special drilling units.

Note: All component parts of the chucks are available as spare parts.
