

WERA Open-end spanner with ring ratchet JOKER type 5727

Design: With chromium molybdenum steel and nickel-chromium coating, straight shape. Fine-toothed ratchet mechanism with 80 teeth and a reset angle of 4.5° on the ring side. The straight jaw with double hexagonal profile and a reset angle of just 30° allows for efficient work even in narrow places. The interchangeable, hardened and serrated metal plate on the jaw side, which serves as an end-stop, holder and anti-slip device, simplifies usage and reduces the risk of slipping and sliding.
