

PFERD Needle file set type NFB 2492

Contains an application-oriented selection of needle files.

Supplied in PVC roll pouch or handy plastic box.

Contents: 12 pieces, 1 needle file each of the profiles: Flat [2406] Hand [2401] Crossing [2403] Three square [2407] Square [2408] Round [2410]

Knife [2405] Half-round [2402] Barrette [2411] Flat with rounded edges [2415] Hand with rounded edges [2416] Crossing oval [2409]

- PFERD precision files meet the most exacting standards of dimensional accuracy, cutting performance and longevity.

Compared to machinist's files, precision files are smaller, easier to handle, and possess a more precise geometry.

They are used in the jig and tool construction fields, in particular to produce tools for punching, shaping, forging and stamping serial articles etc.

In addition, precision files are suitable for assembling tasks and building complex devices and machines to the highest precision standards.

The cross section is measured at the uncut part of the file.

Model	Length mm	Article
Cut 1	140	23870871
Cut 2	140	23870872
