

FORMAT Parallel vice with welded pipe clamping jaw type 5014

Design: Die-forged, jaws and anvil inductive-hardened [52?58 HRC], with extra large anvil and highly moulded clamping jaws, which allow for greater clamp depth. Anvil surface suitable for straightening and compressing work. Front-opening, precise tightening thanks to adjustable guide rail, which is protected from contamination by scrapers, with measurement scale. With welded pipe-clamping jaws.
