

FORMAT Solid steel quick-clamp type 5100

Design: Slide rail, fixed bracket and pressure plate made from one piece of structurally optimised, cold-drawn profile steel, mobile bracket made from forged and galvanised zinc-plated heat-treatable steel, raster mechanism for regulated and secure clamping, cam made from wear-resistant sintered steel, with plastic-covered release lever, swivel-mounted, hardened and galvanised zinc-plated steel pressure plate, with ergonomic handle.

Application: For clamping in little time and with little force.
