

BESSEY Solid steel quick-clamp type 5108

Design: Slide rail, fixed bracket and pressure plate made from one piece of structurally optimised, cold-drawn profile steel, mobile bracket made from forged and galvanised zinc-plated heat-treatable steel, raster mechanism for regulated and secure clamping, cam made from wear-resistant sintered steel, with plastic-covered release lever, swivel-mounted, hardened and galvanised zinc-plated steel pressure plate, with ergonomic handle.

Application: For clamping in little time and with little force.

10 % more clamping force thanks to optimised rail profile, clamping force created up to 5 times faster. Clamping force up to 8.5 kN.
