

BRADY Lockout system collapsible for valve handles

Brady's collapsible gate valve design provides secure lockout for a wider range of valves, with the use of fewer devices. These covers easily rotate around valve handles to the fully engaged position, while also folding into smaller sizes for easy storage on maintenance carts and in lockout kits. Our collapsible gate valve lockouts have a unique knockout centre accommodates OS & Y or "rising stem" valves and accepts locks with shackles up to 9.53 mm diameter. Danger labels in English, Spanish and French are included.

Description	Article
Brady Collapsible Gate Valve Lockouts for 178 - 330 mm diam., Red, 177.80 - 330.20 mm	13333557
