

FORMAT Jigsaw blade same as Bosch T318 AF type 2735**design:**

Side clearance milled, wavy cut. Blade with fine result for straight cuts in soft steel, aluminium, non-ferrous metals and plastics.

Tooth pitch:

Small tooth pitch for fine cuts with slower work progress, in hard and/or thin material such as metals and non-ferrous metals.

Use:

For thin metal sheets, sandwich material (< 65 mm), pipes and open profiles incl. aluminium (dia. < 65 mm).

Application:

Saw blades are subject to high mechanical and thermal loads. For this reason, the use of specific coolants e.g. cutting oil [for steel, metals], turpentine [for aluminium] is recommended in order to extend the wear-resistance of the saw blade.

Design: 5 pieces on card.

Suitable for: Bosch, AEG, Milwaukee, DeWalt, ELU, Festool, Hitachi, Mafell, Makita, Metabo, Protool.
