

TSUBAKI BS Triplex Roller Chain GT4 WINNER Series

Tsubaki BS/DIN GT4 Winner RS Roller Chain is the most advanced chain in the European market. The product is available in chain sizes from RF06B up to RS48B*. Simplex, duplex and triplex executions are at your disposal.

Tsubaki GT4 Winner is enhanced with the following advantages:

- Lube Groove Bush to hold oil at the point of contact, where the chain needs it most, providing an internal reservoir for lubricant. The result is a chain that lasts longer with lower maintenance costs over the lifetime of the chain. Lube Groove Bush is available in sizes RS16B through RS24B.
- Seamless Bush with a very precise cylindrical profile and surface finishing resulting in better surface contact between the pin and bush, and improved lubricant retention.
- Ring Coin connecting link allows the chain to be specified up to its full kW rating.
- Centre Sink Pin design offers easy chain disassembly and the markings on the rivet head will identify pin rotation.

*RF06B curled bush; RS56B/RS72B on request.

Characteristics

Series: GT4 WINNER

Type: BS 10B-3
