

## PFERD Grinding stone, series A24-A37 hardness O

Mounted points in hardness O consist of pink aluminium oxide in a vitrified bond. These tools are characterized by a very long tool life and good stock removal rate due to the combination of wear resistant grain and a hard bond. The hardness O is particularly suited for use on edges and for deburring work on steel components.

| Lining material | Granulation | Diameter<br>mm | Hardness | Length<br>mm | Pin connection<br>mm | Article  |
|-----------------|-------------|----------------|----------|--------------|----------------------|----------|
| Aluminium oxide | 60          | 32             | O        | 6            | 6                    | 23872348 |
| Aluminium oxide | 60          | 32             | O        | 6            | 6.35                 | 23872315 |
| Aluminium oxide | 60          | 41             | O        | 10           | 6                    | 23872347 |
| Aluminium oxide | 60          | 41             | O        | 10           | 6.35                 | 23872314 |
