

PFERD Inverted cone abrasive stone hardness O

Mounted points in hardness O consist of pink aluminium oxide in a vitrified bond. These tools are characterized by a very long tool life and good stock removal rate due to the combination of wear resistant grain and a hard bond.

The hardness O is particularly suited for use on edges and for deburring work on steel components.
 - The maximum permitted rotational speed refers to the unsupported shank length of 10 mm

Lining material	Granulation	Diameter mm	Hardness	Length mm	Pin connection mm	Article
Aluminium oxide	46	32	O	25	6	23872281
Aluminium oxide	60	20	O	16	6	23872277
