

MOLYKOTE Multilub grease

- High-performance grease for metal/metal combinations involving slow to fast movements and medium to high loads.
 - Good load-carrying capacity
- Suitable for long-term lubrication by virtue of low oil evaporation
- Good water wash-out resistance
- Good corrosion protection
- Good oxidation resistance
- Reduction of wear and scoring.

Application

- Lubrication contacts with light to medium loads and low to high speeds, even in the presence of moisture and spray; Used on roller bearings, plain bearings, sliding guides, roller guides, ball-and-socket joints, splined shafts and threaded spindles; Used for chassis lubrication on cranes, forklift trucks and lifting apparatus.

Technical Information

Temperature Range:

- From -25 to +120°C
