

## MOLYKOTE D-321 R Lubricating coating

- Air-curing dry lubricant.  
Air-drying
- Avoidance of stick-slip
- High ageing resistance.

### Characteristics

**Series:** D-321 R

**Temperature range:** -180 / 450 °C

**Colour:** Grey

### Application

- For metal/metal combinations with slow to medium-fast movements and high loads; Suitable for the permanent lubrication of highly stressed sliding guides with low sliding speeds, oscillating movements or intermittent operation; Improving the running-in process and for lubrication under high vacuum and at extreme temperatures; Used successfully for cylinder- head bolts, toaster guides, car mirror adjustment mechanisms, high voltage switches, for the running in of highly stressed gear wheel; Emergency lubricant for parts of the rotor head of wind energy installations and for groove-free cold extrusion of steel.

### Technical Information

**Temperature Range:**

- From -180 to +450°C
