

MOLYKOTE MoS2 powder Z

- Effectively lubricates metal surfaces of all kinds in many difficult and extreme environments e.g. metal/metal pairings at extreme loads and slow speeds or metal/plastic pairings at low loads and low to medium speeds.
Reduction of friction and wear
- Excellent adhesion on metal surfaces
- Extreme pressure resistance
- Resistant to oxidation
- Wide service temperature range.

Application

- Coating of metallic frictional contacts which cannot be sufficiently lubricated with oil or grease due to high loads, low speeds or unfavorable environmental influences.

Technical Information

Temperature Range:

- From -185 to +450°C
