

RACO Heavy duty electric actuator, Series M

Applicable even under the toughest conditions, high cycle rates, high dynamics, extremely long service life. Extensive standard and special equipment. The design of the RACO electric actuators is based on a modular system and allows the optimal combination of the components. Due to this variability RACO electric actuators have a wide spectrum of applications. Depending on the conditions of the application and the adjustment task, ball screws or trapezoidal screw drives can be used. Ask our specialists about the various possibilities and options.

Thrust [kN]: 2,5 - 100

Characteristics

Series: M

Type: TIM7
