

## AKO Pinch valve Series: VMC-R Type: 210R Pneumatic operated Weld end DIN 11850 row 2

### Characteristics

**Series:** VMC-R

**Type:** 210R

**Norm:** EN (DIN)

**Housing material:** Stainless steel

**Material quality:** AISi10Mg

**Connection:** Welded end

**Standard welding connection:** DIN 11850 row 2

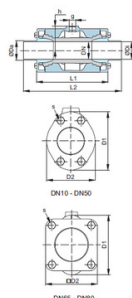

**Operation:** Pneumatic operated

**Minimum medium temperature [continuous]:** -10 °C

**Maximum medium temperature [continuous]:** 80 °C

### Application

- Recommended in: Food & Beverages, Food primary processes [contact with food]

| Nominal inner diameter | Material code hose/sleeve | Hose/sleeve material      | Maximum control pressure<br>bar | Maximum pressure difference at 20 °C<br>bar | Article  |
|------------------------|---------------------------|---------------------------|---------------------------------|---------------------------------------------|----------|
| DN65                   | NBR-LW                    | NR (natural rubber) white | 8                               | 6                                           | 12392117 |
| DN15                   | EPDM                      | EPDM                      | 8                               | 6                                           | 12306144 |
| DN20                   | EPDM                      | EPDM                      | 8                               | 6                                           | 12381073 |
| DN25                   | EPDM                      | EPDM                      | 8                               | 6                                           | 12369865 |
| DN50                   | EPDM                      | EPDM                      | 8                               | 6                                           | 12306145 |
