

3M Scotch-Brite Surface Conditioning Laminated Sanding Disc SC-FD

Design: With aluminium oxide fleece segments (A). Because the layers have been directly applied to a fibreglass underlay they can be used on angle grinders without additional backing pads.

Application: The discs deliver the best results on steel, stainless steel, aluminium and non-ferrous metals. For de-rusting and cleaning on flat metal parts, surface preparation for laminates and paints as well as for creating a decorative finish.
