

DIN7500D Thread forming screw Hexagon head with washer Steel zinc plated

DIN 7500 thread forming screws form their own "female thread" in ready-made holes by thread-rolling into malleable material.

The resulting thread corresponds to standard metric thread.

Advantages:

- thread-cutting becomes unnecessary
- no play in the mating threads
- high vibration resistance
- no chips

Characteristics

Series: DIN 7500D

Surface protection: Galvanic/electrolytic zinc plated

Head form: Hexagon head

Screwing system: Hexagon

DIN standard: 7500

Hardened: Yes

Thread moulding: Yes
