

NEDERMAN ORIGINAL extraction arm

It is specially designed for working environments with fumes, vapours or non-explosive dust. Typical workplaces are the metal fabrication industry or other types of industries where extraction is needed. The applications can be welding, grinding, or other industrial processes where an easily positioned arm is required. The product is equipped with a damper in the hood as standard.

Dimensions Original Extraction Arm

- A swivel allows the product to rotate 360°.
- The arm is flexible in all directions and simple to position.
- The product can be mounted in combination with different brackets, extension arms, on a rail system or on fixed or mobile filter equipment.
- The product is equipped with a damper in the hood as standard.
- The hood on all models can be tilted in all directions.
