

KOMET Saw machine blades, HSS-E type 2753

HSS-E  
DMo5

Design: Komet SB-5 brand product made of high-strength HSS steel using the latest manufacturing methods, recognised for maximum tool life and versatile application. Komet VP-7 saw blade with additional variable tooth pitch and positive teeth.

Application: For quality cuts with top performance in long-chipping and tough materials such as stainless and acid-resistant steels. The tooth geometry reduces vibration during sawing. The variable tooth pitch extends the range of applications.

Characteristics

Type: Machine sawblade

| Length | Number of teeth per inch | Thickness | Height | Material | Article  |
|--------|--------------------------|-----------|--------|----------|----------|
| mm     |                          | mm        | mm     |          |          |
| 400    | 14                       | 1.5       | 25     | HSS-co   | 12629730 |
