

FORMAT Parallel vice type 5013

Design: Die-forged, jaws and anvil inductive-hardened [52-58 HRC], with extra large anvil and highly moulded clamping jaws, which allow for greater clamp depth. Anvil surface suitable for straightening and compressing work. Front-opening, precise tightening thanks to adjustable guide rail, which is protected from contamination by scrapers, with measurement scale. With holder for swivelling and interchangeable pipe clamping jaws.
