

FORMAT Screw clamp with 2-component plastic handle type 5086

Design: Hollow profile rail made of statically optimised, cold-drawn quality steel, 6-way serrated and zinc-plated, fixed and mobile brackets made of high-quality, powder-coated cast iron, spindle with trapezoidal thread, burnished, with 2-component plastic handle, square-shaped for improved force transmission and mobile-mounted, completely flat pressure plate. Screw clamps up to 400 mm jaw span are fitted with plastic protective caps on the pressure plate and on the upper part for gentle clamping.

Application: Multi-purpose clamping tool for holding items for processing or connecting to other parts.
