

HONEYWELL Prota Shell welding helmet

The leading latest generation Speedglas weldinghelmets with an ADF filter have several unique features for a high wear - and use comfort for the welder:

- a headband with many setting possibilities that makes sure that headband has an optimal adjustment to the head
- an exelent protection from the neck as the side of the neck as well and ears
- an extra large sidewindow that increases the visionfield
- openings in the helmet where the exhaled air can escape and makes that there is less heat buildup in the helmet.
