

EFFBE Vibration damper LEVEL-MOUNT type 9650

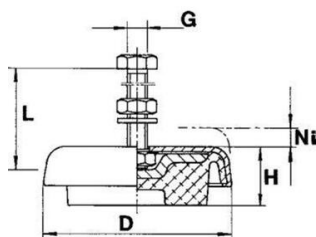

Design: Elastomer body of synthetic rubber, oil and aging resistant, outer cap of metal, yellow powder coated, pressure plate made of ductile iron, screw made of galvanised steel.

Application: For flexible and anchor free installation of machines and presses.

Note: The load values listed in the table are reference values, which were determined from the viewpoint of good stability and anchor free installation of machines.

Selecting the right element:

Determine load per element (machine weight: attachment points), determine machine, select elements according to the table below, compare screws size with receiving hole.

Description	Article
Machine bearing LEVEL-MOUNT 2000kg LM 3-33	23429850
Machine bearing LEVEL-MOUNT 4000kg LM 5-55	23429851
