

SKF Flanged bearing housing square Series: FNL

FNL flanged housings are well-proven machine parts that provide simple, reliable housing in applications without horizontal frames. FNL flanged housings are non-split housings that are produced in two designs depending on size. Smaller sizes up to and including size FNL 13 have a triangular flange, larger sizes have a square flange.

The housings are supplied with a cover either for shaft ends or for through shafts. The housings with a cover for shaft ends have the designation suffix A, the housings with a cover for through shafts have the designation suffix B.

FNL flanged housings are made of grey cast iron.

Characteristics

Series: FNL

Manufacturer ID	Outer dimension bearing	Length	Height	Shaft height	Centre distance of mounting holes	Housing material	Article
	mm	mm	mm	mm	mm		
FNL 515 B	130	190	190	95	152	Grey cast iron	23764623
FNL 515 A	130	190	190	95	152	Grey cast iron	23764622
