

SKF Needle roller bearing without ribs without inner ring

Series: RNAO

Needle roller bearings without ribs on the outer ring are ready-to-fit units. The bearings are not self-retaining. This means that the outer ring, needle roller and cage assembly and inner ring can be fitted independently of each other. Needle roller bearings without ribs on the outer ring are available with and without an inner ring in a single or double row design. Bearings without an inner ring are highly suitable for bearing arrangements with particularly compact radial dimensions, if the shaft raceway can be hardened and ground.

Characteristics

Series: RNAO

Model: without inner ring

Manufacturer ID	Inner diameter	Outer diameter	Width	With sealing	Article
	mm	mm	mm		
RNAO 12X22X12 TN	12	22	12	No	24004323
RNAO 25X35X17	25	35	17	No	23769441
RNAO 25X35X26	25	35	26	No	24004325
RNAO 32X42X13	32	42	13	No	24004327
