

SKF Single-Point automatic lubricator series LAGE

- The SKF LAGE series is the first choice when a simple and reliable automatic lubricator is required under variable temperatures, or when the application conditions (such as vibration, limited space or hazardous environments) require the lubricator to be remotely installed. Battery powered, LAGE units are a perfect complement to the comprehensive range of SKF automatic lubricators. Temperature independent dispense rate
- Maximum discharge pressure of 5 bar over the whole dispensing period
- Transparent reservoir allows visual inspection.
- Red-green LEDs indicate the electro-mechanical status
- Refill sets include battery pack

Characteristics

Series: LAGE

Type: LAGE 125/HFP15

Drive mechanism	Container volume ml	Lubricant	Article
