

MOLYKOTE D White assembly paste

- Light-colored, solid lubricant paste for assembly and running-in of metal components.
High load-carrying capacity
- Prevents stick-slip and seizure
- Good corrosion protection
- Excellent protection against galling and fretting corrosion
- Cleanliness.

Characteristics

Series: D

Temperature range: -25 / 250 °C

Colour: Grey / White

Application

- Sliding surfaces and frictional contacts exposed to heavy loads, requiring “clean” lubrication, particularly at low speeds, and as a running-in lubricant; Used successfully, for example, on many frictional contacts of electrical and domestic appliances, packaging and office machinery, precision instruments, machinery in foodstuffs and beverages industry, as well as in textile and plastics processing machinery; Wherever thin-film lubrication is impossible, the white multi-purpose grease paste

Technical Information

Temperature Range:

- From -25 to +250°C
