

VSM Fibre abrasive disc corundum type 8761

Design: Resin-bonded aluminium oxide grain [A] on tear-proof, thick, vulcanised fibre backing material uniform and slightly loose. Excellent grit friction, long life, minimal pressure and good flexibility. With centre hole [standard bore 22.23 mm] and cross slots.

Application: Universal product for work with non-alloyed steel and non-ferrous metals on angle and disc grinders and abrasive heads on flexible shanks. For all angle grinders with backing pads of max. 80 m/s peripheral speed. Ideal for working with containers, cast parts, body parts etc.

Note: Rubber backing pad see [Order no. 8250] Seitenverweis86530115#.
