

3M SecureFit 100 Safety Spectacles

For economical eye protection designed for extended wear-time, select the 3M™ SecureFit 100 Series. The 100 Series offers a popular sporty lens design, adding a fresh look to the SecureFit family of safety glasses. These lightweight safety glasses feature 3M's innovative temple design with slotted ribs that provide comfortable pressure equalization, allowing the temples to flex and self-adjust to the size of the wearer's head. The design of these safety glasses applies pressure to the less sensitive back of the head instead of the temples, achieving a comfortable fit even during rapid head movement. In addition, SecureFit 100 Series flat and flexible temple design combines well with 3M™ Protective Earmuffs.
