

De-Icing Marine Salt White

White De-icing Salt:

Conforms to BS3247:2011, the British Standard for de-icing salt.
Marine salt harvested from sustainable sources around the Mediterranean Sea.
Almost 100% pure sodium chloride meaning every particle plays a part in the de-icing process making it an efficient Winter salt at battling ice and snow.
White salt does not leave behind the same messy residue as traditional brown salt (grit).
Perfect for pathways, pavements, playgrounds and commercial estate where cleanliness is important.
Is screened and has graded particle sizes for even distribution, which increases pedestrian safety and the working life of the equipment.
Free flowing and ideal for use in spreaders or by hand.
