

KNIPEX Cable shears with telescopic legs type 95 32

Design: Precision blades made of special grade, special tool steel; hardened and tempered in oil; bracket made of high-strength aluminium oval tubing. Burnished head. Very high cutting performance thanks to two-handed operation and ratchet principle; low amount of effort required thanks to optimum lever transmission. The arms can be set at various levels (400 to 600 mm) and as such can be individually adapted to the task in hand. The tool can be opened in every cutting position. Handles with multi-component plastic coating.

Application: For the smooth and squash-free cutting of single- and multi-wire copper and aluminium cables, including with hard rubber or plastic covers. Also suitable for cables with hoop iron armouring.

Note: Not suitable for steel wire and wire cable.
