

FORMAT Hinged magnet measuring stand type 4298

Design: Five-axis articulated measuring stand, central locking with sprung clamping. With powerful prism sole magnet, can be switched on and off, fast clamping in any position. Arms made of red anodised, high-strength aluminium alloy, can be combined as required. With fine adjustment on magnetic base for confined spaces and hard-to-reach areas, zero setting is quicker than with any other fine adjustment. With dial gauge Ø 8 mm and dovetail adapter. Supplied in transport packaging.

Application: For clamping dial gauges, precision indicators, lever gauges and measuring probes.

Note: Please order dial gauges separately.
