

KNIPEX ALLIGATOR water pump wrench type 56 08

Design: DIN ISO 8976. The pushed-through slip joint allows for a high degree of stability as a result of the double bearing. The safety guard prevents fingers from being crushed. Handles with multi-component plastic coating.

Made of chromium-vanadium electric steel, hardened and tempered in oil, grip zones with specially hardened teeth [61 HRC]. Self-clamping onto pipes and nuts.
* With especially narrow handle covers.
