PR_EC000173_0256_MVB_EN_26.04.2024

PFERD COMBIDISC fleece disc CD soft model

Design: Resin-bonded soft fleece with aluminium oxide grain (A). With excellent grit friction, very open structure, long life, and very good flexibility.

Application: For sanding finishes on flat surfaces, contours and for cleaning work on metal and paint. On grinding the addition of oil or water gives even finer surfaces, cooler grinding and longer life. The discs' flexibilty for surface grinding will be determined by the holder's degree of hardness.
