

FORMAT SDS Max hammer drill type 1265

Design: 2 blades for faster drilling results. High drilling speed thanks to optimised head geometry. Precise initial drilling behaviour due to special blade design. The wide twist shape ensures good drilling progress. HST annealed surface for higher break-resistance in hammer drilling operation. Certified by the Prüfgemeinschaft Mauerbohrer [PGM] according to the requirements of the Deutschen Instituts für Bautechnik [DIBt].

Application: Concrete, stone, masonry.

* Pre-drill at least 150 mm deep with a short drill of the same diameter.

Characteristics

Cutting direction: Right

Type: Hammer drill
